

Client Testimonials

Geoff has been instrumental in helping me develop healthy boundaries while running an in-demand audiology practice. My desire to help as many patients as possible and ensure my staff is supported had led me down a path to burnout, but with Geoff's help I see new possibilities and recognize that my business needs to work for me, not the other way around.

Geoff helped me bring the long-term vision I have for my business into such focus that it feels inevitable. I'm a list maker and his direction has allowed me to break down the vision into actionable and manageable tasks. He continues to support me as I shift my day-to-day habits and organizational systems to move me closer and closer to that vision.

I was navigating a period of rapid growth in which I needed to add staff and formalize processes in my boutique yarn business and Geoff helped me gain clarity about how to prioritize my plans and take action on my goals. That focus helped me get more done, with less wasted effort, and we are continuing to grow as a result!

Geoff has an uncanny knack for simplifying complex issues or undefined problems, and presenting them in bite-sized solutions. He brought so much clarity to the things I was struggling with as a business, and even helped me see how to apply such solutions. From focusing on my value, *redefining my prices, and prioritizing my time, my conversations with Geoff are always eye opening experiences.*
